

WIZARD GOLD SPOT WELDING 10 KVA

Three-Phase Frequency

DC

CCC

CE

Technical Parameters	10 KVA
Input Supply (V)	220/415
Winding	100 Copper
Phase	Single/Two
Controlling System	Optional
Brass Rod (Inch)	18 inch
Brass Rod (mm)	450
Brass Rod Size (mm)	38mm
Weld Material	
Copper Anode	16mm * 10 inch
Suitable for Welding Rod	5mm + 5mm
Suitable for Welding Sheet	1.2 + 1.2
Suitable for Welding Sheet	18 guage
Automation Grade	Manual
Max. Electrode Stroke (mm)	50
Cooling for Arms & Electrods	Air
Weight with Arm (Approx)	120

FEATURES

New Design, Smart Appearance
Compact Size, Lightweight and Power Saving

Strong Current Output, Superior Arc Performance
Quality Weld with Precise Control
