

WIZARD GOLD SPOT WELDING 20 KVA

Three-Phase Frequency

DC

CCC

CE

Technical Parameters	20 KVA
Input Supply (V)	220/415
Winding	100 Copper
Phase	Single/Two
Controlling System	Optional
Brass Rod (Inch)	18 inch
Brass Rod (mm)	450
Brass Rod Size (mm)	50mm
Weld Material	
Copper Anode	19mm/25mm
Suitable for Welding Rod	12mm + 12mm
Suitable for Welding Sheet	3 + 3
Suitable for Welding Sheet	10 guage
Automation Grade	Manual
Max. Electrode Stroke (mm)	75
Cooling for Arms & Electrods	Air
Weight with Arm (Approx)	185

FEATURES

New Design, Smart Appearance
Compact Size, Lightweight and Power Saving

Strong Current Output, Superior Arc Performance
Quality Weld with Precise Control
