

WIZARD GOLD SPOT WELDING 8 KVA

Three-Phase Frequency

DC

CCC

CE

Technical Parameters	8 KVA
Input Supply (V)	220/415
Winding	100 Copper
Phase	Single/Two
Controlling System	Optional
Brass Rod (Inch)	18 inch
Brass Rod (mm)	450
Brass Rod Size (mm)	25mm
Weld Material	M.s, S.s C.r.c. etc.
Copper Anode	16mm * 10 inch
Suitable for Welding Rod	4mm + 4mm
Suitable for Welding Sheet	0.7 + 0.7
Suitable for Welding Sheet	22 guage
Automation Grade	Manual
Max. Electrode Stroke (mm)	40
Cooling for Arms & Electrods	Air
Weight with Arm (Approx)	100

FEATURES

New Design, Smart Appearance
Compact Size, Lightweight and Power Saving

Strong Current Output, Superior Arc Performance
Quality Weld with Precise Control
