

WIZARD GOLD WELDING POSITIONERS DHWP - 300

Technical Parameters

- Max Loading capacity : 100 Kg
- Workable revolving speed : 0.35-3.5 rpm
- Workable overturning speed : 2 rpm
- Workable overturning angle : 0-90°
- Workable diameter : 400 mm
- Max eccentric distance : 100 mm
- Max Gravity distance : 150 mm
- Revolving speed adjust : VFD
- Max revolving diameter at vertical 90°:600 mm
- Controller : Remote manual box
- Revolving motor power : P=0.18 KW
- Overturning motor power : P=0.18 KW
- Input Power : 3P 380V 50 Hz

Supply Detail

- Main Machine
- Welding current conductive device 1
- Electric cabinet and remote control box

Standard Technical Parameter of Welding Positioner

Technical Parameters	DHWP - 300
Capacity	300 kg
Table Dia	500 mm
Speed	0.2-25R/M
Motor Power	200 W
Table Hole	170 mm
